Subject: Microsoft settlement

ATTN: Renata B.Hesse

The DOJ, Microsoft and nine (9) attorneys-general have reached a satisfactory conclusion in this BOGUS case against Microsoft.

This case should be concluded as over and those states that do not wish to partake in the settlement should get NOTHING, including Connecticut, which I am a resident of ( my attorney-general Blumenthal has a tendency to grandstand).

Enough already. Microsoft makes a product and generates jobs, pays taxes and provides social responsibility to schools, etc. Government, takes from citizens and is supported by my taxes. End this case NOW!!!

Respectfully
